Pro/ENGINEER is now called PTC Creo, and more than just the name has changed! Creo is a suite of solutions offering integrated 3D CAD/CAM/CAE software. In fact, Pro / ENGINEER is not only an "engineering" component. With the advent of Creo, many new solutions have appeared in various areas - for example, data and project resource management. In addition, PTC has introduced a new line of products based on Creo, which includes products that can run as standalone applications and use Creo as the basis for building new applications. This line includes PTC Integrator, PTC Harmony and PTC Windchill.
