Strange games are a dime a dozen. Between traditional, 4X and RTS games we have an absurdly diverse genre to choose from. Each one has its particular strengths and weaknesses but you have to try some to see what you like. That's not the case with the Diluvion series. It's not your average sci-fi game. Diluvion is a combination of turn-based strategy, RPG and action shooter. In it, players lead their team of chosen heroes through turns and commands, while battling alien hordes and enemy soldiers. The team behind Diluvion comes from experience and love for all sorts of genres. In 2012, they released a Sci-Fi version of the chess game, Tides of Time. That success lead to the creation of Diluvion, a new game with similar content and mechanics. Diluvion is a compelling story with a focus on exploration and combat. There is a lot to learn about the Diluvion universe with the Diluvion Captain's Journal. Inside, you'll find the history and adventure of the Diluvion games, the truth behind the lost colony, and everything to know about the Diluvion universe! Players are armed with various weapons and gear for use throughout the game. There are two main weapons, a small hand-held laser pistol and a larger, ranged hand-held laser rifle. Players also have two unique feats available to them, giving them devastating offensive and defensive abilities. Finally, each player is equipped with a variety of gear to customize their hero's appearance. That's not all! With more to be released in the future, players can also customize their own classes, with their own statistics, abilities and gear. Their class also determines the abilities that can be practiced at special skill trees. Ultimately, the best things in life are simple. Improving at the art of battle and comebacks is the best way to improve your team. **The Diluvion Captain's Journal is not included in this package. J'ai besoin de temps (Translation: "I need some time") Diluvion Made Easy - The Diluvion Primer The system of Diluvion is relatively straightforward but complex and rewarding. The Diluvion Primer explains how the game works and how the game can be played. For years, humans have been living in five large cities located across the planet. The Diluvion system is a technology-driven multi-level world defense
